

Inter-Lakes School District Matrix for Level of Mitigation Strategies

Thursday, January 6, 2022 – Mitigation Level for 01/09/22 – 01/15/22 IL Level ? – IL ?

The Inter-Lakes School District encompasses two counties – Belknap County and Carroll County. A level will be set for the entire School District based on an analysis of the information outlined below. In cases where there are two measures for the two Counties, the highest level will be used. This matrix is a guide and it should be understood that it is likely that all boxes may not be “checked” for a particular level and a decision will require a level of judgment based on the current level of circumstances.

Meeting Notes:

Discussion ensued which included that we are not presently seeing spread within the school environment, which is important to keep in mind when viewing the numbers outside of the school. The discussion included that we need to remind/re-educate/recommit to the mitigation practices in place. Each Principal will make sure proper mask wearing will be reviewed. Discussion ensued about looking at lunch times and seeing if there is anything that can be done to increase spacing. It was also suggested that people need to be reminded of the Plan in place for the school year, where to find the plan and why we have not yet moved to red.
